

etch Laser

Radiant

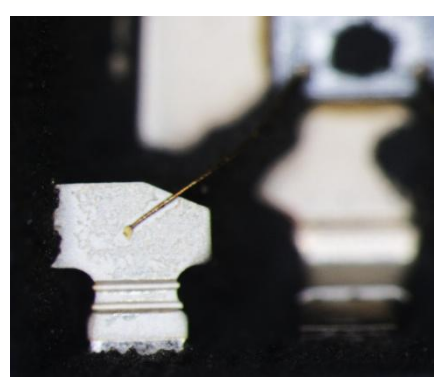

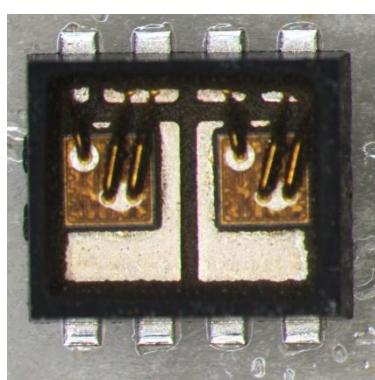

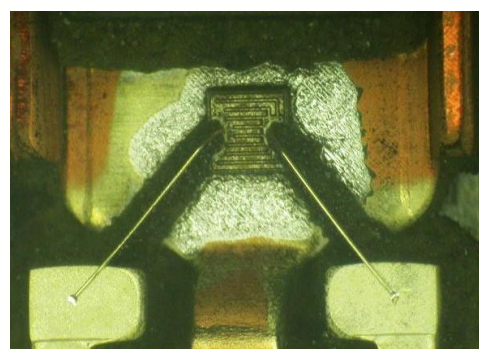

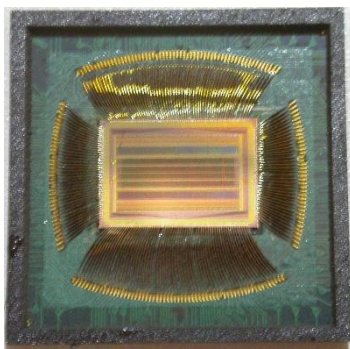

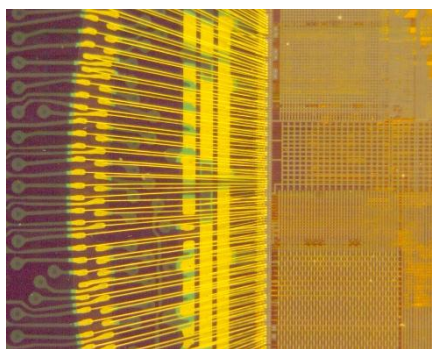

- ▶ Intuitive
- ▶ Easy to learn & use
- ▶ Start Decaping immediately
- ▶ Amazing solutions
- ▶ No Damage Wires
- ▶ On Copper, Gold, Silver/Gold wires

Offers Comprehensive Range of Products & Services that encompass all IC Decapsulation!

etch Laser

World leaders in providing
automated Decapsulator Technology
and Plastic Etching

Specifications	
Laser Type	Air cooled 1064nm Fiber laser
Power	Average output power 30watt
Pulse Width	4ns-200ns selectable
Frequency	1Khz-4000Khz
Decapitate Range	110mmx110mm
Scanning Galvo	XY scanning mirror galvanometer
Laser Zoom	1-18x
Air Cooled	Air cooled integrated controller
Class Safety:	Class 1 Laser Safety
Interlocks	Safety interlocks on Doors
Fume and Dust	Fume and dust extractor
Viewing Window	Laser Safe: Protects from laser Radiation
Control Unit:	Windows®-based ablation software
Decap Monitoring	Real Time Observation through cameras and windows
System size:	1040mm X 700mm X 600mm
Focus Aid	Laser Pointer focus Aid
