QFP ACCESSORY KIT

The fixtures in this kit have been optimized to assist the end user with the decapsulation of a wide variety of QFP packages.

Gasket drawings are displayed below in a 1:1 ratio for easy part number selection and reordering.

All alignment plates (series #0700032) have the suffix engraved.

Gaskets in this kit have thicknesses of approximately .070" (1.8mm) and .031" (.8mm).

A typical fixture stack-up featuring components found in this kit can be seen in the render above.

1" (25.4mm) OD Definition Gaskets:
