DIE-DOWN BGA ACCESSORY KIT

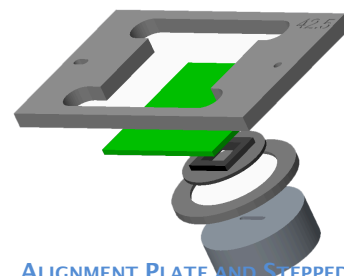

The fixtures in this kit have been optimized to assist the end user with the decapsulation of a wide variety of Die-down BGA packages.

Gasket drawings are displayed below in a 1:1 ratio for easy part number selection and reordering.

All alignment plates (series #0600812) have the suffix engraved.

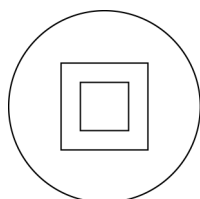

All gaskets in this kit (called Stepped Gaskets) have a protrusion of .040" (1mm).

A typical fixture stack-up featuring components found in this kit can be seen in the render above.
